

Diluting Products Used To Be Confusing

Now, It's Easy With United Laboratories'

The EZ-D Dilution System provides you and your staff with a system that is:

- Easy to install
- Easy to learn
- Easy and safe to use

It features:

- The EZ-D Dilution System (item AEZD)
- The EZ-D product storage rack (item AEZDR)
- Five highly concentrated products for economy of use (see below).
- A color coded wall chart that coordinates with product labels, outlining applications in an easy to understand format.
- Available dilution quart bottles (item PBT22) with coordinating labels.

Best yet, EZ-D is safe to use, reliable, cost effective, helps to promote regulatory compliance and was designed to minimize environmental impact.

64 BACFIGHTER

United 64 BACFIGHTER is a disinfectant, sanitizer, fungicide and virucide.

When used as directed for general disinfection performance in non-medical facilities like schools, restaurants, food services and food processing plants, **BACFIGHTER** will control Escherichia coli O157:H7, Listeria monocytogenes, Proteus mirabilis, Salmonella enterica, Staphylococcus aureus, Staphylococcus aureus (Methicillin resistant) and Yersinia enterocolitica with 10 minute contact time.

It also provides virucidal and fungicidal protection against Hepatitis C, Herpes Simplex Type 1, Herpes Simplex Type 2, Human Coronavirus, Infectious Bronchitis Virus, Influenza A2/Japan Virus, Vaccinia virus, Trycophyton mentagrophytes (athlete's foot fungus, which is a cause of Ringworm).

Use for sanitizing food processing equipment and other hard surfaces in food processing locations, dairies, restaurants and bars. Sanitize equipment, utensils, dishes, sinks, countertops and other non-porous surfaces, with no potable water rinse required. **BACFIGHTER** eliminates bacteria including Campylobacter jejuni, Clostridium perfringens-vegetative, Escherichia coli, Escherichia coli O157:H7, Listeria monocytogenes, Shigella dysenteriae, Staphylococcus aureus, and Yersinia enterocolitica with 60 seconds contact time.

Great for use in:

- Locker Rooms
- Showers
- Exercise Facilities
- Health Care Facilities
- Class Rooms
- Washrooms
- Nursing Homes
- Cafeterias
- Food Processing Areas

455S SUNSHINE LIQUI-ZYME Odor Eliminator

This Earth Smart® formulation is safe for both users and the environment. It contains no hazardous components, no VOCs and is ranked zero in all HMIS numbers.

Formulated with specifically-targeted enzymes, **SUNSHINE LIQUI-ZYME** tackles tough odors associated with people, animals and trash. **SUNSHINE LIQUI-ZYME** goes straight to the source of odor. Featuring United's popular Sunshine fragrance, this formula immediately leaves areas smelling fresh while it quickly eliminates the source of the odor.

Use as a space spray in quart bottles with a trigger sprayer or in pump-up sprayers for larger deodorizing jobs.

Great for use in:

- Locker Rooms
- Drains
- Garbage Chutes
- Hallways
- Washrooms
- Garbage Disposals
- Dumpsters
- Elevators
- Class Rooms
- Storage Areas
- Kennels
- Dormitories
- Offices
- Buses and Vehicles
- Hotel Rooms
- Basements

FD DILUTION SYSTEM

687 GLEAMING GREEN All Purpose Cleaner Concentrate

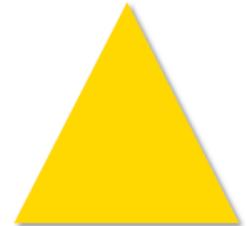

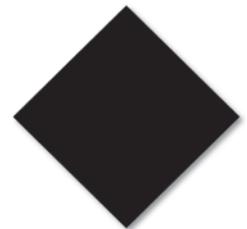

GLEAMING GREEN's Earth Smart® formulation is Green Seal certified and is safer for both users and the environment. It contains no hazardous components, no VOCs and is ranked zero in all HMIS numbers.

GLEAMING GREEN provides versatile all purpose cleaning performance for use on most water safe surfaces. From concrete, vinyl, wood, or terrazzo flooring; to ceramic tile, brick, cement or painted walls; to countertops and kitchen stove hoods, this formulation will leave a clean, streak-free finish.

This highly concentrated formulation supplied in our 1/2 – gallon bottle makes 64.5 gallons of cleaner for a truly economical all-purpose cleaning solution.

Perfect for use in:

- Schools
- Health Clubs
- Nursing Homes
- Commercial Building
- Hotels
- Dormitories
- Apartment Complexes
- Maintenance Shops
- Kitchens
- Restaurants
- Industrial Facilities

★ 776 BERRY BEST All-Purpose Degreaser-Cleaner

BERRY BEST is one product that will help with all of your daily cleaning needs. This Earth Smart® certified formulation is safer for both users and the environment as it contains no hazardous components, no VOCs and is ranked zero in all HMIS numbers.

BERRY BEST breaks through grease and grime, providing all-purpose versatility to clean hard surfaces from floor to ceiling. Clean counters, desks, washrooms, tables and white boards – any non-porous hard surface. **BERRY BEST** also features United's patented Separation Technology, which helps to keep your wash water cleaner, longer and it is beneficial to drain systems and wastewater operations.

This highly concentrated formulation supplied in our 1/2 – gallon bottle will make 65 quarts of cleaner at the high-flow dilution rate or 130 quarts at the low-flow dilution, providing an economical solution with great cleaning performance.

Perfect for use in:

- Every facility

Not only is EZ-D easy to use, it is designed with many other benefits in mind:

Control Costs

By allowing only the right dilutions to be used, you never have to worry about product waste caused by over use of the product. The correct dilution also aids in getting better product performance, thus reducing labor time and cost.

Health and Safety

The special no-spill packaging design used with our EZ-D products prevents the accidental spilling of concentrated chemical products, protecting both staff and building occupants from possible exposure.

Increased Facility and Equipment Life Cycles

Using the proper dilution rates for different applications, reduces added wear and tear on building surfaces and equipment being cleaned, thus increasing their life span.

User Friendly

It doesn't matter if you understand what dilutions are, or even if you speak English. This complete system is designed to be easy-to-use for everyone. Color, number and shape coding are coordinated on both the product labels and the wall chart. These then tie in to other application icons on the chart and dilution system, making it easy to train anyone to find the right product and dilution for the applications needed.

Environmentally Friendly

Highly concentrated formulas packaged in environmentally preferred packaging are better for the environment. Likewise, using the correct dilutions every time eliminates wasted product from being poured down the drain...another plus for the environment.

Space Saving Design

The compact design of the EZ-D Dilution System and the product packaging minimize space requirements for installation and product storage, while maintaining a clean presentation for use.

Safe, economical, reliable cleaning solutions are easily at hand with the EZ-D Dilution System.
