

UNITED

L A B O R A T O R I E S

- Contains enzymes to eliminate odors.
- Contains special detergents to remove embedded urinal odors.
- Cleans and leaves a fresh fragrance with every flush.
- Conditions water.
- Helps prevent urinal drain problems.
- Prevents splash-back.
- Formulated to outlast para-blocks.
- Durable soft plastic housing molds itself to urinals of all shapes and sizes.

This block combines surface active agents with enzymes. Surface odors are neutralized immediately and continuous release action prevents stale odors. Regular use prevents new accumulation of odor.

WORKS AROUND THE CLOCK TO GUARANTEE PROBLEM-FREE URINALS.

This product contains a powerful cleaning system, activated by water to release encapsulated deodorant and condition incoming water. Surface active agents maintain free flowing drains. Reduces scale formation, soil build-up and odors automatically, between periodic cleanings. Destroys bad odors, while leaving a light fresh fragrance. Designed to allow flow through of water with no entrapment of odorous material. Uniquely bevelled ribs prevent splash-back from the screen. Easily removed and disposed of when necessary, the rugged flexible plastic screen molds itself to every urinal.
