LABORATORIES

United 481 ESA POWER-PUCK works to control two common issues in urinals – odors and scale build-up that slows drainage.

Featuring United's Earth Smart® Acid Technology, this product will safely control and eliminate build-up caused by calcium carbonate, uric scale, lime and other mineral deposits to keep drains running freely. While working to dissolve scale faster than phosphoric acid products, this slow-releasing block is safer for both users and the environment.

ESA POWER-PUCK has the strength needed to eliminate odors. Odor controlling agents neutralize the urea to prevent odors from forming; not just cover them up.

- Controls Odors for up to 90 Days
- Eliminates and Controls Scale Build-up
- Non-para Formula is Earth Smart® Certified
- Screen Helps Prevent Clogging of Drain
- Fresh Citrus Floral Scent
- Safe for Use in Waterless Urinals

DIRECTIONS:

Place the form-fitting screen into the urinal covering the drain. Each screen has a removable "dip-stick". When replacing a used screen, break off the dip-stick from the new screen and use it to lift out the used screen for disposal.
