# HIGH-COAT

## Industrial Strength Spray Paint

**HIGH-COAT** provides a high quality, lead-free, industrial enamel coating for maintenance operations where high performance is required.

One can of **HIGH-COAT** provides up to 4 times the coverage of economy brand spray paints for one coat coverage that protects against rust, solvents and most corrosive chemicals. Resists oil, gas, heat and sunlight.

### **HIGH-COAT:**

- High solids won't run or sag.
- Quality one coat coverage.
- Heat resistance up to 300°F (149°C) once cured.
- Resists abrasion, hot environments and high humidity.
- Resists fading, chips, cracking and peeling.

### **HIGH-COAT applications include a multiple of uses:**

- Wood and Metal • Industrial • Construction • Marine • Automotive

### **HIGH-COAT is available in:**

- Gloss Black • Gloss White • Matte Gray

The high-solids in **HIGH-COAT** will provide outstanding hardness for a long-lasting, durable finish.
