Eliminates

*the Main Source of
Food for Roaches...
(and eliminates the roaches!)*

United 233

*Just pour pre-measured packs of
Nightstalker into mop water (or rinse water).*

NIGHTSTALKER

MOP WATER ROACH KILLER

— Treats the roach feeding area mostly ignored by exterminators and other pesticides... the floor.

— Contaminates the almost invisible particles of food swept into corners, and cracks in tile or cement.

— Also controls ants, silverfish, palmetto bugs and other crawlers.

— Excellent fly control in garbage area.

— **WILL NOT** leave a dangerous, slippery film like ordinary boric acid.

Mop on floors right along with a good hard surface cleaner (ask about United's full line).
