DUSTED

POWDERED INSECTICIDE

With United 236 **DUSTED** POWDERED INSECTICIDE, bugs get **DUSTED** never to return.

As bugs walk through **DUSTED**, it clings to their bodies and quickly begins to dehydrate them. Should they make it back to their nest, the powder is spread amongst the colony allowing for further population reduction.

DUSTED contains the quick killing botanical insecticide, pyrethrum for effective control on direct contact, along with silicon dioxide that provides long term control for up to 6 months.

DUSTED EFFECTIVELY CONTROLS...

- | | | | |
|----------------|------------|-----------|---------------------------|
| Cockroaches | Earwigs | Waterbugs | Bees and Wasps |
| Crickets | Silverfish | Mites | Boxelder Bugs |
| Beetles | Scorpions | Fire Ants | Confused Flour Beetles |
| Carpenter Ants | Spiders | Bedbugs | Palmetto Bugs and more... |

APPLY DUSTED...

- | | |
|------------------------|--|
| In cracks and crevices | Along baseboards |
| Under sinks | Behind cabinets and walls |
| Around drain pipes | In crawl spaces or attics |
| In storage areas | In manholes for cockroach infestations |

To dust away your insect problems, **DUSTED** is available in a convenient pint-sized applicator bottle. Just give it a squeeze and bugs get dusted.
