

United 306 REFRESH-SORB

Refresh the air in your environment by absorbing the malodors with **REFRESH-SORB**.

This industrial strength odor absorbent works to control even the toughest odors in rooms, air handlers, confined spaces and more. Activated carbon in the formulation actually draws odors in to neutralize and control them.

REFRESH-SORB:

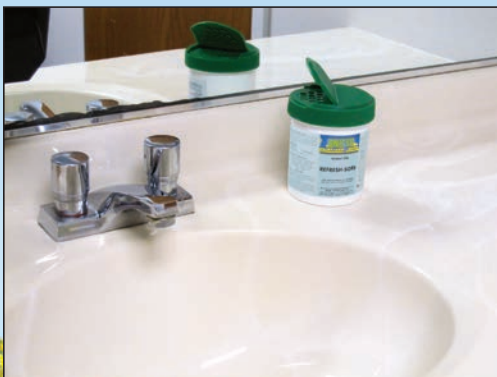

- Activated carbon based formulation with added humectants and reagents for effective odor control;
- Features light "fresh" scent – no heavy masking fragrance.
- Safe and easy-to-use;
- Biodegradable;
- Non-flammable;
- Lasts 30 – 60 days.

Controls odors associated with:

- | | | | |
|------------------|----------------|-------------------------|-------------------|
| • Mold/Mildew | • Body Odor | • Sewers | • Cigarettes |
| • Bathrooms | • Locker Rooms | • Smoke Damage | • Kitchens |
| • Paints/Varnish | • Flooding | • Pets | • Air Handlers |
| • Garbage | • Ammonia | • Public Transportation | • Confined Spaces |

Packaged in one pound containers with flip-top lid that offers variable odor control:

- Use flip-top opening to control light to medium odors over an extended time.
- Remove lid completely to control medium odors.
- For really strong odors, keep the flip top closed and remove the lid. Then invert the container on the lid and lift off container to leave product fully exposed on the lid. This allows more surface area of the product to absorb odors more quickly.

Refresh your facilities by absorbing and eliminating odors with **REFRESH-SORB**.
