

BETTER AND BRIGHTER

H Factor™ products contain stabilized hydrogen peroxide which adds an oxygen molecule to stains and odors for use in their elimination. **H Factor™** technology adds an oxygen molecule to stains, mold mildew, slime, scale and deposits, to eliminate these tough conditions, and frees hydrogen into solution, improving water solubility. The result is better and brighter cleaning!

H Factor™ Features:

- Enhanced cleaning capabilities.
- A special formulation with a stabilized oxidant.
- Safe on colorfast fibers.
- Eliminates odors.
- Inhibits further corrosion of metal parts when used as directed.
- Environmentally friendly chlorine-free, offering wide range of cleaning applications.

H Factor™ Applications:

- Carpet Cleaners
- Liquid Laundry
- Sanitizers
- Kitchen and Bath Cleaner
- All Purpose Cleaner

Category Comparison	Bleach	H Factor™ products
HMIS®		
Health	3	1
Flammability	0	0, 1
Reactivity	2	0, 1
Skin Irritation	Severe Skin Irritant	Mild Skin Irritant
Fuming	Strong Fumes (Chlorine Gas)	Non-Fuming
Shipping Classification	"Hazardous, 172.101" Requires Surcharges	"Non-Hazardous" No Surcharges
Corrosivity to Metals	Corrosive, Attacks many soft metals & mild steels	Will not attack Brass, Chrome, Copper & SAE 1020 Carbon Steel when used as directed
Cleaning Efficacy	Poor	Better
Color Safe on Fibers	Discolors Fibers	Color-safe
Shelf life	3 months (concentrate)	1+ years
