

Safety Data Sheet

Issue Date: 13-Apr-2015

Revision Date: 13-Apr-2015

Version 1

1. IDENTIFICATION

Product Identifier

Product Name United 974 UNITED STRUVOUT

Other means of identification

SDS # UNITED-974

Recommended use of the chemical and restrictions on use

Recommended Use Dispersant and Sequestrant.

Details of the supplier of the safety data sheet

Supplier Address

United Laboratories, Inc.
320 37th Avenue
St. Charles, IL 60174
www.unitedlabsinc.com
www.unitedlabsinc.ca

Emergency Telephone Number

Company Phone Number 800-323-2594 (to reorder)
Emergency Telephone (24 hr) INFOTRAC 1-800-535-5053 (North America)
1-352-323-3500 (International)

2. HAZARDS IDENTIFICATION

Appearance Colorless liquid

Physical State Liquid

Odor Odorless

Classification

This chemical does not meet the hazardous criteria set forth by the 2012 OSHA Hazard Communication Standard (29 CFR 1910.1200). However, this Safety Data Sheet (SDS) contains valuable information critical to the safe handling and proper use of this product. This SDS should be retained and available for employees and other users of this product.

3. COMPOSITION/INFORMATION ON INGREDIENTS

Chemical Name	CAS No	Weight-%
Triphosphoric acid, pentasodium salt	7758-29-4	15-40
Non-hazardous ingredients	N/A	60-85

If Chemical Name/CAS No is "proprietary" and/or Weight-% is listed as a range, the specific chemical identity and/or percentage of composition has been withheld as a trade secret.

4. FIRST-AID MEASURES

First Aid Measures

Eye Contact	Immediately flush with large amounts of water for at least 15 minutes holding eyelids open to ensure flushing of the entire surface.
Skin Contact	Immediately wash contaminated areas with water. Remove contaminated clothing and footwear. Wash clothing and decontaminate footwear before reuse.
Inhalation	Remove to fresh air.
Ingestion	Never give anything by mouth to an unconscious person. If person is conscious, give large quantities of water or milk. Seek medical attention immediately.

Most important symptoms and effects

Symptoms	May cause eye irritation, redness and pain. May cause skin irritation. Prolonged or repeated exposure may cause skin inflammation and pain especially with moist skin. May cause irritation to respiratory tract which may include coughing and shortness of breath. Ingestion phosphates are slowly and incompletely absorbed when ingested, and seldom result in systemic effects. Symptoms may include vomiting, lethargy, diarrhea, blood chemistry effects, heart disturbances and central nervous system effects. The toxicity of phosphates is due to their ability to sequester calcium.
-----------------	--

Indication of any immediate medical attention and special treatment needed

Notes to Physician	Treat symptomatically.
---------------------------	------------------------

5. FIRE-FIGHTING MEASURES

Suitable Extinguishing Media

Use large quantities of water. Dike to contain.

Unsuitable Extinguishing Media Not determined

Specific Hazards Arising from the Chemical

Not determined

Protective equipment and precautions for firefighters

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear. Approach incident with caution.

6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures

Personal Precautions	Use personal protective equipment as required.
Environmental Precautions	See Section 12 for additional Ecological Information. Do not flush into sanitary sewer system or surface water. If accidental release into the environment occurs, inform the responsible authorities. Keep the product away from drains, sewers, surface and ground water and soil.

Methods and material for containment and cleaning up

Prevent further leakage or spillage if safe to do so. Contain spill by collecting the liquid in a pit or absorb with inert media and dispose of properly. Disposal of all materials shall be in full and strict compliance with all federal, state, and local regulations pertaining to phosphates. Flush area with large amounts of water.

7. HANDLING AND STORAGE

Precautions for safe handling

Advice on Safe Handling Wear protective gloves/protective clothing and eye/face protection. After handling phosphate solution, always wash hands thoroughly with soap and water. Avoid contact with skin and eyes.
Provide sufficient mechanical and/or local exhaust.

Conditions for safe storage, including any incompatibilities

Storage Conditions Keep this product in a properly labeled, tightly closed container in a cool dry area.

Incompatible Materials Strong oxidizing agents such as bleach.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Exposure Guidelines

Appropriate engineering controls

Engineering Controls Provide sufficient mechanical and/or local exhaust.

Individual protection measures, such as personal protective equipment

Eye/Face Protection Safety glasses with side shields or safety goggles are recommended. Provide eyewash in working area.

Skin and Body Protection Rubber or plastic gloves are recommended. Long sleeve shirt and long pants.

Respiratory Protection Normally not required. IF TLV is exceeded, use a NIOSH/MSHA approved respirator.

General Hygiene Considerations Handle in accordance with good industrial hygiene and safety practice.

9. PHYSICAL AND CHEMICAL PROPERTIES

Information on basic physical and chemical properties

Physical State	Liquid	Odor	Odorless
Appearance	Colorless solution	Odor Threshold	Not determined
Color	Colorless		

<u>Property</u>	<u>Values</u>	<u>Remarks • Method</u>
pH	4.0-5.0	
Melting Point/Freezing Point	<0°	
Boiling Point/Boiling Range	>101 °C / >213 °F at 760mm Hg	
Flash Point	Does not flash	
Evaporation Rate	1	(Water = 1)
Flammability (Solid, Gas)	Liquid-Not applicable	
Upper Flammability Limits	Not determined	

Lower Flammability Limit	Not determined	
Vapor Pressure	Not determined	
Vapor Density	Not determined	
Specific Gravity	1.33	(Water = 1)
Water Solubility	Not determined	
Solubility in other solvents	Not determined	
Partition Coefficient	Not determined	
Auto-ignition Temperature	Not determined	
Decomposition Temperature	Not determined	
Kinematic Viscosity	Not determined	
Dynamic Viscosity	Not determined	
Explosive Properties	Not determined	
Oxidizing Properties	Not determined	
VOC Content	None	

10. STABILITY AND REACTIVITY

Reactivity

Not reactive under normal conditions.

Chemical Stability

Stable under recommended storage conditions.

Possibility of Hazardous Reactions

Under normal conditions of storage and use, hazardous polymerization will not occur.

Conditions to Avoid

Keep out of reach of children.

Incompatible Materials

Hazardous Decomposition Products

When strongly heated, as in a fire, this product may form toxic fumes of phosphorous oxides.

11. TOXICOLOGICAL INFORMATION

Information on likely routes of exposure

Product Information

- Eye Contact** Avoid contact with eyes.
- Skin Contact** Avoid contact with skin.
- Inhalation** Do not inhale.
- Ingestion** Do not ingest.

Information on physical, chemical and toxicological effects

- Symptoms** Please see section 4 of this SDS for symptoms.

Delayed and immediate effects as well as chronic effects from short and long-term exposure

- Carcinogenicity** Based on the information provided, this product does not contain any carcinogens or potential carcinogens as listed by OSHA, IARC or NTP.

Acute toxicity

Phosphate toxicity can occur with over dosage. Severe phosphate toxicity can result in hypocalcemia, and in various symptoms resulting from low plasma calcium levels.

Chronic toxicity

No known cases of chronic poisoning due to phosphate solutions have been reported. May sequester calcium and cause calcium phosphate deposits in the kidneys. Systemic metabolic acidosis may result as this material is believed to be hydrolyzed to ortho phosphates when ingested (before absorption).

12. ECOLOGICAL INFORMATION

Ecotoxicity

Not determined

Persistence/Degradability

Possible short term degradation products are not likely. However, in long term orthophosphate formation may occur.

Bioaccumulation

Not determined

Mobility

Miscible in water.

Other Adverse Effects

Not determined

13. DISPOSAL CONSIDERATIONS

Waste Treatment Methods

Disposal of Wastes

Disposal should be in accordance with applicable regional, national and local laws and regulations pertaining to phosphates. This product when it becomes a waste is considered as a non-hazardous waste. However, chemical waste generators must determine whether a discarded chemical is classified as a hazardous waste. US PA guidelines for the classification determination are listed in 40 CFR Parts 261.3.

RCRA P-Series: None Listed.

RCPA U-Series: None Listed.

Contaminated Packaging

Disposal should be in accordance with applicable regional, national and local laws and regulations.

14. TRANSPORT INFORMATION

DOT

Not regulated

IATA

Not regulated

IMDG

Not regulated

15. REGULATORY INFORMATION

International Inventories

Legend:

- TSCA - United States Toxic Substances Control Act Section 8(b) Inventory*
- DSL/NDSL - Canadian Domestic Substances List/Non-Domestic Substances List*
- EINECS/ELINCS - European Inventory of Existing Chemical Substances/European List of Notified Chemical Substances*

US Federal Regulations

CERCLA

Chemical Name	Hazardous Substances RQs	CERCLA/SARA RQ	Reportable Quantity (RQ)
Triphosphoric acid, pentasodium salt CAS, No. 7758-29-4	5000 lb		RQ 5000 lb final RQ

SARA 313

Section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 (SARA). This product does not contain any chemicals which are subject to the reporting requirements of the Act and Title 40 of the Code of Federal Regulations, Part 372.

CWA (Clean Water Act)

None of the substances in this preparation product are listed as Hazardous Substances under the CWA.
None of the substances in this preparation are listed as Priority Pollutants or as Toxic Pollutants under the CWA.

US State Regulations

California Proposition 65

This product does not contain a chemical known to the State of California to cause cancer, birth defects or other reproductive harm.

U.S. State Right-to-Know Regulations

Chemical Name	California	Massachusetts	Pennsylvania
Triphosphoric acid, pentasodium salt CAS, No. 7758-29-4	X	X	X
