TURBO-ZYME cuts through tough dirt and grease build-up without dangerous solvents.

- **TURBO-ZYME** slices through built up dirt, grease, oils, and food residue.
- Ideal for use during rehab maintenance — shutdowns, outages, off-season cleaning.
- Use on all stationary equipment including presses, conveyor systems, bottling and packaging lines, storage racks, exhaust fans and ductwork.
- Safe for use on most hard surfaces including stainless steel, aluminum, rubber, vinyl, plastic, fiberglass and galvanized metals.
- Enzymes catalyze naturally-occurring bacteria to speed cleaning process.

Earth Smart® formulation means there are no environmental or safety hazards.

- No hazardous components, no VOCs, ranked zero in all HMIS numbers.
- Patented Separation Technology enhances operation of water clarifiers, oily-water separators and other recirculating systems.
- Near neutral pH at use dilutions.
- Completely non-flammable.
- No phosphates.
- Non-toxic formula assures personal safety for workers.

1-800-323-2594 • www.unitedlabsinc.com**

DIRECTIONS FOR USE:

TURBO-ZYME is designed to be used as a presoak. For best results, dilute concentrate with 5-10 parts warm water in a portable sprayer.

Wet entire surface with **TURBO-ZYME** solution and allow the surface to remain wet for 15-30 minutes. Agitation will quicken the cleaning process. Avoid letting the solution dry on the surface.

Use a hose or pressure washer to rinse entire surface with potable water. Dry any unprotected metal surfaces.

TURBO-ZYME is generally not effective with burned-on or carbonized grease.

Cleaning effectiveness is affected by **Temperature, Agitation, Concentration and Time (TACT)**. Adjust each to maximize your cleaning process.

**FOR FOOD PLANT AND
OTHER INDUSTRIAL USE:**

Food contact surfaces are to be washed and rinsed with potable water before reuse.

EMERGENCY AND FIRST AID PROCEDURES:

EYES: Immediately flush with plenty of water for at least 15 minutes. Seek medical attention.

SKIN: Wash with soap and plenty of water. If symptoms develop, seek medical attention.

INHALATION: Remove patient to fresh air. If symptoms develop, seek medical attention. If not breathing, give artificial respiration.

INGESTION: DO NOT induce vomiting. Get medical attention immediately.
