

Sprayers (Plastic)

- ▶ For use with acids, caustics or water base products

A042 **Two-Gallon Compression Sprayer— Acid Resistant**

- ▶ Has no metal fittings or parts to corrode or rust when used with descalers, metal cleaners and other acidic products.
- ▶ 36-inch reinforced hose.
- ▶ Viton seals.

A046 **Backpack Sprayer (Model 425)**

- ▶ 4 gallon capacity - most popular size.
- ▶ High-density polyethylene tank with ultra-violet inhibitors.
- ▶ Large 4.25" opening for easy filling and cleaning.
- ▶ Shut-off valve and wand with an overall length of 28" for hard-to-reach places.
- ▶ Unbreakable wand prevents damage common to brass and brittle plastic wands.
- ▶ 4' high-pressure hose.
- ▶ Padded shoulder straps with pull tabs for greater comfort and quick and easy adjustments.
- ▶ Chemically resistant Viton® seals, gaskets and o-rings provide excellent chemical resistance and durability.
- ▶ Pressure can be regulated to 90 psi by means of a built-in pressure regulating valve.
- ▶ Equipped with an adjustable, flat spray, hollow cone, and jet stream nozzle to accommodate virtually every spraying need.
- ▶ Built-in strainers, screens, and filters help keep debris out of the nozzles.
- ▶ Compatible with most water based products.
- ▶ For use with: degreasers; disinfectants; deodorizers; pesticides; liquid ice melters; coil cleaners; mold and mildew cleaners.
- ▶ 1 YEAR WARRANTY.
