

UNITED 103 SPRAY TRIUMPH

Converts rust to form a stable paintable surface.

Eliminates the need for scraping, sandblasting or priming rusty surfaces.

Protects further rusting on surfaces exposed to rain, sun and salt spray.

Can be top coated with any industrial grade paint for ultimate durability and protection.

Great for use on rusted metal, including:

- Wrought iron fences and railings
- Staircases and catwalks
- Gangplanks and scaffolding
- Racking and shelving
- Production equipment
- Storage tanks
- Forklifts and carts
- Lawn care and landscaping equipment
- Pole barns and storage sheds
- Farm equipment
- Truck beds • Docks
- Heavy machinery

SPRAY TRIUMPH is an actual rust converter which quickly and easily converts residual rust to a black protective polymeric coating. This inert protective coating prevents further rusting and corrosion.
