

United 912 BLUE GEM

Vehicle Wash and Wax

Washes away dirt and grime and leaves behind a gem-like finish in one easy step...enhances the operation of oily water separators, too.

United 912 BLUE GEM features the latest innovation in vehicle washing technology.

Its unique combination of several mild but highly effective surfactants produces a long-lasting lather to wash away dirt and grime.

It contains Montan wax to produce a gem-like, showroom-quality shine on your vehicle while also offering the most resistance to oxidation and other environmental stresses, such as sun and acid rain.

United 912 BLUE GEM is safe to your vehicle's finish:

- Will not oxidize – has a neutral pH.
- Will not scratch – contains no harsh abrasives.
- Will not corrode – does not contain excess sodium or other ions.

It's Earth Smart®... plus, it contains natural soy methyl ester to readily cut through grease, tar and bugs.

United 912 BLUE GEM features unique quick-break emulsion chemistry that enhances the operation of oily water separators.
