

# Control Odors and Insects in Drains, While Repelling Rodents

## United 29

# FRESH AIR™ LOCK

## Urinal and Drain Treatment

Don't let odors and insects from urinals and drains leave a bad impression about your facility.

**FRESH AIR™ LOCK** floats on urine, water and other liquids in drains and urinals to effectively lock out the air that creates and carries the odors out of the drain, while creating a safe barrier between the user and the fluids in the drains.

**Extending the life of waterless urinal cartridges to save money is easy with FRESH AIR™ LOCK.** As the original liquid seal barrier of the cartridge dissipates over time, simply replace by pouring in 3 – 4 ounces of product directly into the cartridge.

Formulated with United's Fresh Air™ Technology, this product also works to control and repel both insects and rodents around the drains.

- Control gnat and fruit fly infestations in floor drains.
- Repel mosquitos, flies and more, that are drawn to both urinal and floor drains.
- Repel rodents from floor drains.

### FRESH AIR™ LOCK:

- Earth Smart® Certified;
- Floats on water, urine and other liquids;
- Locks air out and sewer odors in;
- Will not evaporate to 100°F;
- Will not freeze above -14°F;
- Aromatherapy benefits of peppermint oil refresh and energize.

You'll find this drain treatment is perfect for use in any facility as fresh peppermint scent leaves a positive impression. Facilities that can truly benefit from the insect and rodent repelling benefits include:

- Parks
- Forest Preserves
- Golf Courses
- Ball Fields
- Restaurants
- Institutional Kitchens
