

UNITED

LABORATORIES

Use on equipment throughout the year to provide a slick, non-stick coating that provides superior release action. **United 127** protects metal, fiberglass, painted and plastic finishes. Applying **Seasonal Equipment Wax** to these types of surfaces reduces drag and sticking of many materials to the surface. It also leaves surfaces water and rust resistant.

IN SPRING, SUMMER AND FALL:

Treat lawn mower decks, blades, weed wackers, chippers, edgers and trimmers to lessen drag and increase efficiency. **Seasonal Equipment Wax** will keep damp grass and other clippings from sticking to treated surfaces, while protecting metal surfaces from the corrosive effects of fertilizer and other lawn care treatments.

IN WINTER:

Use **United 127** to treat snow plows, shovels, street signs and road signs to prevent ice and snow from sticking to their surfaces. **Seasonal Equipment Wax** increases plow efficiency and helps protect metal surfaces from the corrosive effects of the winter weather, salt and other treatments that are used to keep roadways, parking lots and walkways clear of snow and ice.

DIRECTIONS:

Shake well before using. Shake well before using. Spray equipment and allow to dry. Equipment can be used immediately after drying. After use, invert the can and spray a short burst to clear valve.

DANGER: Use with adequate ventilation. Intentional misuse by concentrating and inhaling the product can be harmful or fatal.

⚠ WARNING: This product can expose you to chemicals including n-Hexane, which is known to the State of California to cause birth defects or other reproductive harm. For more information, go to www.P65Warnings.ca.gov.
