FRESH AIR™ LOCK Urinal and Drain Treatment

is a bio-based and biodegradable treatment for use in waterless urinals and drains. **FRESH AIR™ LOCK** floats on urine, water and other liquids in drains and urinal traps to effectively lock out the air that creates and carries the odors out of the drain, while creating a safe barrier between the user and the fluids in the drains.

Formulated with **Fresh Air™ Technology**, this product also works to control and repel both insects and rodents around the drains. Control gnat and fruit fly infestations in drains. Repel mosquitos, flies and more: ants, beetles, centipedes, cockroaches, crickets, earwigs, silverfish, spiders, termites and ticks, that are drawn to both urinal and floor drains. Repel rodents, mice, rats, ground squirrels and bats from floor drains.

FRESH AIR™ LOCK:

- Earth Smart® Certified;
- Floats on water, urine and other liquids;
- Locks air out and sewer odors in;
- Will not evaporate to 100°F;
- Will not freeze above -14°F;
- Aromatherapy benefits of peppermint oil refresh and energize.

DIRECTIONS FOR USE:

WATERLESS URINALS: Simply pour 3 ounces of **FRESH AIR™ LOCK** directly into holes of trap to fill filter cartridge. Refill as needed. Each 3 ounce application lasts for approximately 1,500 uses.

DRAINS: Depending on drain size, add 3 to 5 ounces of product to create a layer across the top of the fluid in the drain. Re-application will vary depending on drain flow. Replace when layer is noticeably deteriorated or odors begin to return.

NOTE: Do not subject this product to disinfectants, boiling water, or chlorinated products.

HAZARD STATEMENTS:

Combustible liquid.

PRECAUTIONARY STATEMENTS:

Keep away from heat/sparks/open flames/hot surfaces. No smoking. Wear protective gloves/protective clothing/eye protection/face protection. IN CASE OF FIRE: Use CO2, dry chemical, or foam for extinction. Store in a well-ventilated place. Keep cool. Dispose of contents/container to an approved waste disposal plant.

FIRST AID MEASURES:

IF IN EYES: Immediately flush eyes thoroughly with water for at least 15 minutes. If symptoms develop, seek medical attention.

IF ON SKIN: Wash with soap and water. If irritation persists, seek medical attention.

IF INHALED: Not likely, due to the form of the product. If symptomatic, move to fresh air. Seek medical attention if irritation persists.

IF SWALLOWED: Do not induce vomiting. Drink several glasses of water. See physician if symptoms persist. Never give anything by mouth to an unconscious person.

An SDS for this product is available through United's website, www.unitedlabsinc.com, providing 24 hour access. Please read the SDS carefully and follow all directions when using or handling this product. Never reuse empty containers. Incompatible materials may adversely react.

Storage: The product is combustible. Store in a cool, dry area away from heat, sparks, and open flame.

Disposal: When container is empty, recycle, if available. If recycling is not available, wrap and place container in a trash collector. Do not puncture or incinerate.

This product has not been registered by the United States Environmental Protection Agency. United Laboratories, Inc. represents that this product qualifies for exemption from registration under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA).
