L A B O R A T O R I E S

DIRECTIONS:

TOILETS AND URINALS: Apply **PINK MARVEL** under the flush rim of the toilet. **PINK MARVEL** is formulated to cling to vertical surfaces and it remains in contact with stains and scale, penetrating and dissolving for easy removal of soil, hard water scale, and uric acid crystals. Pour several ounces of **PINK MARVEL** on dampened bowl mop and swab entire bowl — inside, outside, under rim, toilet seat, and cover. Let stand 2 - 3 minutes and then flush with clean water.

TUBS, LAVATORIES: Safe to use on acid-resistant porcelain fixtures such as toilets, lavatories, bath tubs, shower stalls, etc. Swab on surface with agitation, and then rinse immediately with clean water.

CHROME, STAINLESS STEEL, DRINKING FOUNTAINS AND STERILIZERS: Apply to surfaces to remove scale and soap scum. Use agitation for severe soil conditions. **PINK MARVEL** may be diluted with equal parts of water for lighter duty cleaning. Always rinse surfaces thoroughly with clean water.

CERAMIC TILE AND GROUT: **PINK MARVEL** will effectively clean and descale acid resistant ceramic tile on both walls and floors. For grout, apply full strength, agitate with a bristle brush, and then flush thoroughly with clean water. Do not apply to glazed ceramic tile as glazing may be removed. Continual use on marble may damage surface.

DO NOT USE THIS PRODUCT ON: Galvanized, magnesium or similar surfaces. Always pretest unknown surfaces for compatibility before using.
